Summit Overview

Join ITS America, public and private sector leaders, practitioners, policy professionals, researchers and federal government officials as we further the conversation on how transportation technology can help achieve our shared goals of increasing safety, efficiency, resiliency, mobility, and economic growth. Panels, keynotes, and fireside conversations will discuss the intersection of emerging technology and transportation policy. Public and private sector thought leaders will discuss: technology investment in the next surface transportation reauthorization, U.S. global competitiveness in transportation, technology procurement, artificial intelligence policy, consumer privacy, and Federal leadership in automated vehicle safety.

On day two, ITS America Standing Committee members will attend Committee meetings.
